

SHARX

Attack Prescription Spend

with the Rx Solution that Delivers

50% - 70% Reduction for Employers and up to **100% Reduction**
for Employees

WHY SHARx?

Year after year, employers struggle with the **escalating cost of medications** and the **impact they have on the total health spend**. This is the reason we developed the SHARx program, to allow employers to reduce their overall prescription spend by eliminating the risk of high-cost medications, while still giving their employees access to their medications.

For Employees

- ✓ Reduces Employee Cost Share for Prescriptions
- ✓ Maintains Employee Access to Prescriptions

WHAT IS SHARx?

SHARx is a program designed to redirect high cost prescription access.

As it can take a few weeks to get set up, now is the time begin the process to access your specialty medications.

1. Gives employees access to most specialty drugs at **NO COST SHARE**, resulting in tremendous **EMPLOYEE SATISFACTION**
2. Employees retain access to specialty medications

**WATCH THIS VIDEO TO
LEARN MORE**

HOW DOES SHARx WORK?

Employees still have access to all their medications; they have just been moved OUTSIDE the health plan - leaving employers with no exposure to risk.

Advocacy

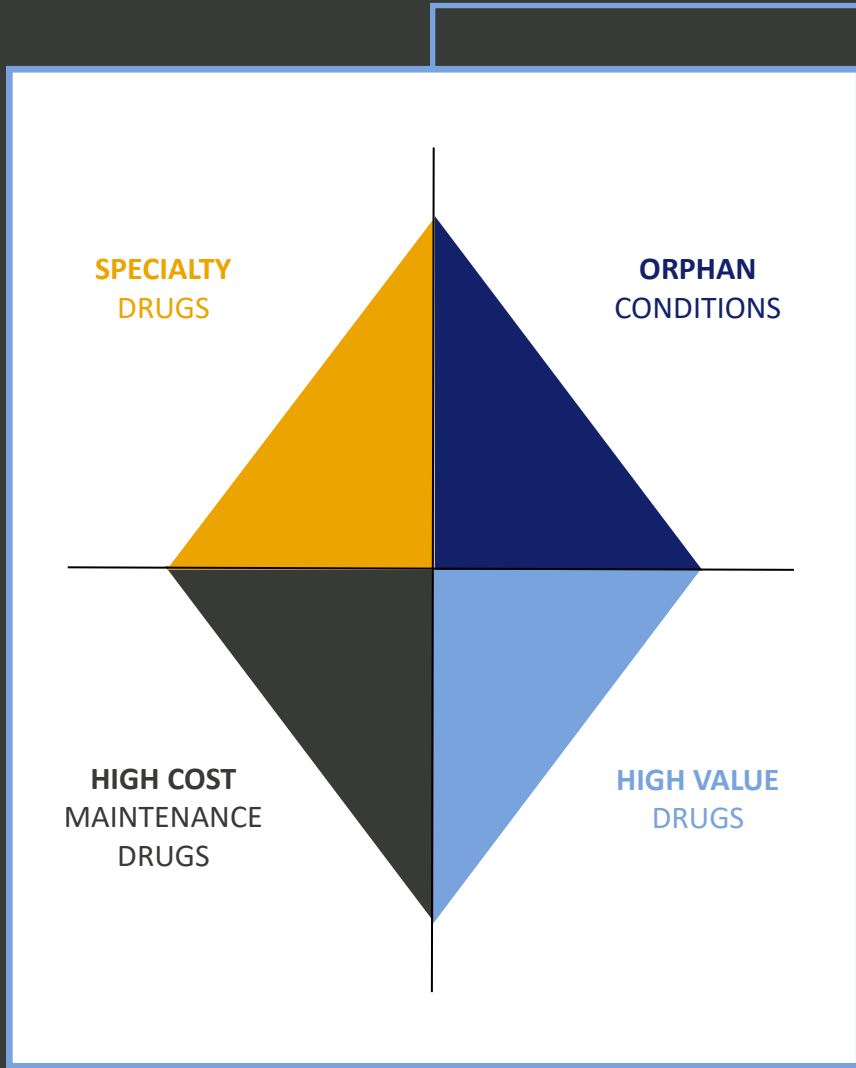

Employees fit for SHARx are assigned an advocate to support them in filling their high cost drugs. Their advocate will find the best sourcing option for their medication(s) and will guide them on what steps they need to take to fill these drugs.

WHO IS ELIGIBLE?

Your employer is making this program available to all members enrolled in the health plan. If you are currently on a high cost medication, you will want to follow the instructions in the welcome email you receive or call 314-451-3555 option 1 to begin working with the SHARx Advocacy team.

WHAT ARE THE COSTS?

There are no costs to participate in the SHARx program. Your employer has paid 100% of the cost of this service for you and your family as long as you are enrolled in the your employer's health plan. Prescriptions obtained through this service could be FREE for you and your family. Sometimes a co-pay or out of pocket amount will be required, but this out of pocket may be substantially less than what you are paying now.

WHAT IS CONSIDERED A High Cost MEDICATION?

Any medication that has a cost of at least \$350 per month is considered high cost.

These would include: Insulin (all types), Abilify, Actemra, Advair, Androgrel, Atripla, Breo, Brilinta, budesonide, Bydureon, Canasa, Celebrex, Concerta, Crestor, Cymbalta, Dexilant, doxycycline, Effient, Eliquis, Elmiron, Enbrel, Flovent HFA, Gilenya, Glatopa, Glyxambi, Humira, Invokana, Janumet, Januvia, Latuda, Lipitor, Lyrica, Multaq, Nexium, Onfi, Plavix, Premarin, Proair, Prolia, Remicade, Restasis, Seroquel, Singulair, Spiriva, Stelara, Toujeo, Victoza, Xarelto, Xolair, and MANY, MANY More!!

WHAT HAPPENS IF I DON'T ENROLL IN THE SHARX PROGRAM?

Your high cost medications will no longer be covered by the pharmacy benefit plan; and, without SHARx, you will be required to pay full price for these medications. Certain manufacturers will require additional information to verify your income. Please respond right away to these requests for additional information to ensure there is no delay with your advocacy. Our goal is for everyone to receive the medications they need as quick as possible at the lowest price, and this is only accomplished with your help.

WHAT CAN I EXPECT?

It is important to note that this is not an overnight solution and usually takes from two to four weeks on average to implement your cost savings, depending on outside circumstances of doctor cooperation, ease of communication and understanding. You may also be asked to verify your income, so please respond right away. Be patient with this process and realize that SHARx advocates want to help you.

OUR TECHNOLOGY ADVANTAGE

Our proprietary platform was designed to make it as easy as possible for members to engage. In order to enroll, you simply follow the link in your email to create your account and answer a few easy questions.

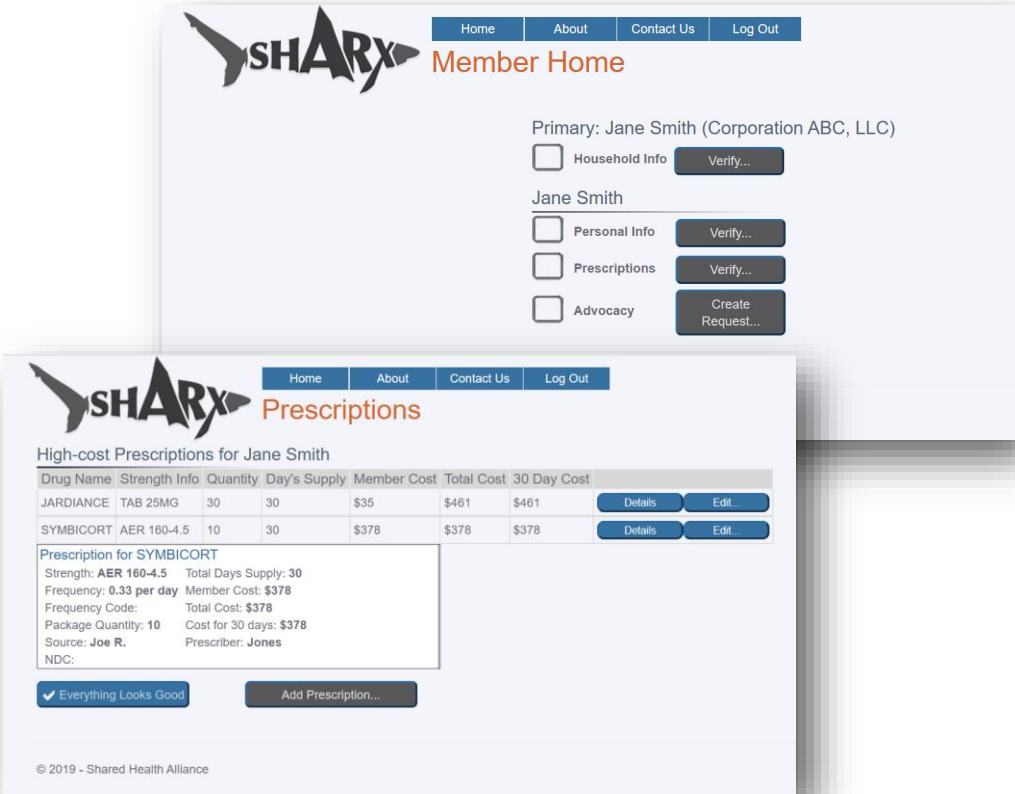

Follow the instructions in the welcome email to get started!

One Portal, Full Access:

Simple process to get started

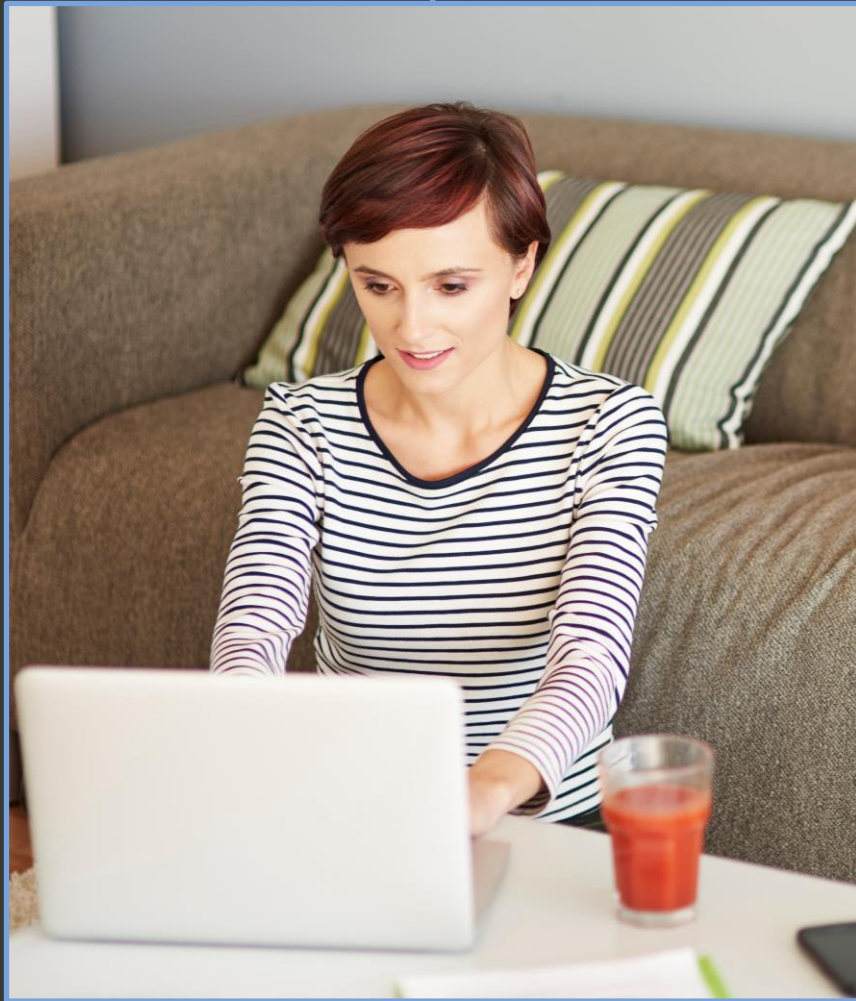

Most of your information is already pre-loaded for you!

Come back any time for status updates and tracking of fulfillment of medications

“The portal was extremely easy! Frankly, I didn't expect it to be easy as it was.”
- HR Manager of Lumber Company

INSTRUCTIONS TO CREATE YOUR ADVOCACY REQUEST

During onboarding, if you have been identified as having a high cost drug, you will receive a welcome email from SHARx.

After receiving the email, please follow the instructions in the email:

1. Click on the custom link in the email to create an account on the SHARx platform.
2. Validate your identity and set up a user account for the website.
3. After logging in, you can verify the prescription information we have on file for you (and your dependents).
4. Complete a “Request for Advocacy” and we’ll get to work on saving money for you and your employer.

If you do not receive a welcome email or are prescribed a high cost medicine in the future, please email sharx@sharxplan.com or call 314-451-3555 option 1.

Onboarding **FAQS**

Concern:

- 1 HIPAA form required.**
- 2 The HIPAA says I will need to provide financial information.**
- 3 Is this optional? I like the way I've been filling my medications and don't want to change.**

Solution:

This form allows the advocate to work on your behalf. This allows us to speak with your doctor and the manufacturer of your specialty drug(s) to gather necessary information and apply for discounted programs for you.

The requested financial information is required to apply for free manufacturer programs and will not be disclosed to anyone outside of the manufacturer through this application.

This is not optional. As of the go live date, all drugs over \$350 per month will no longer be covered by your insurance plan, and you will need to work with SHARx to find an alternative solution to fill your medications. Signing up early will allow the least amount of disruption in filling your medications and will result in the most savings for you.
